Kyle's Trading Card Shop

Thanks for your order!

Removing your card:
Your card is in a semi-rigid Card Saver, sealed inside a clear team bag. The bag is held to this sheet by two removable glue dots at OPPOSITE CORNERS (upper-left and lower-right of each holder as you read this). Lay the sheet flat, hold the holder flat with one hand, and peel the PAPER slowly back and away from it, starting at a dot corner — don't pry or bend the holder up off the page. Then lift the bag's flap and slide the holder out. No adhesive touches the holder or your card.

Questions or an issue with your order? Message us through eBay — we make it right.

Order notes / packing slip area — tuck loose, no staples (hard point fails the pinch test)

(this half faces the buyer when unfolded)

FOLD HERE — cards fold INWARD — this crease seats fully DOWN at the bottom of the envelope

BAG EDGE = LEFT PAPER EDGE · this end = return-address end of envelope

ZONE 1 — EVERY ORDER

bagged Card Saver I, portrait
1-2 cards: this zone only

team bag 3-3/8 x 5 (saver 3-5/16 x 4-7/8 inside)
flap side DOWN against this sheet

G

G

ZONE 2 — ADD FOR 3-4 CARD ORDERS

second bagged Card Saver I, landscape
team bag 3-3/8 x 5 · flap side DOWN against this sheet

BAG EDGE = RIGHT PAPER EDGE

G

Bench sequence

1. Penny sleeve, then Card Saver I (max 2 cards, back-to-back).
2. Saver into team bag LIP END FIRST. Press the air out, fold flap over, seal.
3. Two removable glue dots on the FLAP side of the bag at the printed amber G marks (opposite corners, over the saver body). Dots never touch the saver.
4. Press bag into its zone, bag edge riding the paper edge.
5. Fold · snip the marked corner · stuff face-down, crease first, clipped corner top-LEFT (= under the label corner) · seat the crease fully at the bottom.

SNIP THIS CORNER after folding (or pre-clip the printed stack) — clipped corner = LABEL corner
